CHEMICAL PEELS

and their full

DESCRIPTION

TCA PEEL

Trichloroacetic Acid (TCA) 25%

is a medium-depth Chemical Peel designed to resurface the skin, improve texture, and treat various dermatological concerns. This professional-grade peel effectively penetrates the epidermis and upper dermis, stimulating collagen production and promoting skin regeneration.

Key Benefits

* Trichloroacetic Acid 25% / 30%

- * **Targets Skin Imperfections:** Helps improve pigmentation, acne scars, uneven skin tone, and textural irregularities.
- * **Effective for Acne & Scars:** Reduces acne breakouts, hypertrophic scars, and keloid scars.
- * **Addresses Elastosis:** Helps improve loss of skin elasticity by promoting collagen remodeling.
- * **Visible Peeling & Renewal:** Expect peeling and flaking as part of the skin's natural renewal process.

GSM PEEL

A close-up photograph of a woman with dark hair, smiling and applying a white, creamy product to her face. Her hands are visible, gently touching her skin. The background is a plain, light color.

GSM is a potent 8% Retinol formula designed to accelerate cellular turnover, improve pigmentation, and reduce acne scarring . By stimulating mitochondrial ATP production, this advanced treatment promotes skin regeneration and oil regulation, making it ideal for both aging and acne-prone skin

Key Benefits

* Cold Standard Microneedling

- * Reduces Pigmentation & Scarring: Brightens skin and improves texture.
- * Boosts Mitochondrial ATP Production: Enhances skin cell energy and renewal.
- * Accelerates Cellular Turnover: Speeds up exfoliation for a fresh, youthful complexion
- * Controls Sebum Production: Helps regulate oil levels and prevent breakouts.

SKIN PERFUSION DILUENT

A close-up photograph of a woman with dark hair, smiling and applying a white cream to her face with her hands. The background is a plain, light color.

Skin Perfusion Diluent is a potent skin perfusing agent formulated with 50% DMSO (Dimethyl Sulfoxide) to counteract ischemia, enhance oxygenation, and improve skin health. This highly effective solution offers antioxidant, anti-inflammatory, and bacteriostatic benefits, making it ideal for acne, rosacea, eczema, pruritus, and skin sensitivity. It also helps alleviate painful skin conditions by improving blood circulation and reducing oxidative stress.

Key Benefits

* Advanced Skin Perfusion & Antioxidant Treatment

* Enhances Skin Oxygenation: Counteracts ischemia and promotes skin healing.

* Potent Antioxidant Protection: Neutralizes free radicals and reduces oxidative stress.

* Bacteriostatic & Anti-inflammatory: Prevents bacterial growth, making it effective for acne, rosacea, and eczema.

* Reduces Pruritus & Skin Sensitivity: Alleviates pain, itching, and discomfort.

REDERMALIZATION HA

A close-up photograph of a woman with dark hair, smiling and applying a white cream to her face. Her hands are visible, gently touching her skin. The background is a plain, light color.

Redermalization HA is a powerful non-crosslinked Hyaluronic Acid (HA) and Sodium Hyaluronate formula designed to deeply hydrate, restore skin volume, and support dermal collagen reconstruction. This advanced skin booster acts as an HA replenishing agent, improving skin elasticity, hydration, and overall skin health. It is ideal for post-procedure recovery, anti-aging treatments, and skin barrier reinforcement.

Key Benefits

* Advanced Hyaluronic Acid Skin Booster for Deep Hydration & Collagen Reconstruction

* Deep Hydration & Skin Plumping: Infuses moisture into the skin, enhancing firmness and elasticity.

* Collagen Reconstruction: Supports dermal regeneration for smoother, more youthful skin.

* HA Replenishing Agent: Helps maintain optimal skin hydration for long-lasting suppleness.

MATERNAL PREGGY PEEL

A woman with dark hair is shown from the chest up, applying a white, foamy facial peel to her face. She is looking upwards and to the right with a slight smile. Her hands are positioned on her cheeks, spreading the product. The background is a plain, light color.

A gentle yet effective peel designed to address concerns during or after pregnancy. It helps reduce the appearance of stretch marks, improves uneven skin tone, and hydrates the skin while minimizing fine lines.

Key Benefits

Prevents and reduces the appearance of stretch marks

- * Reduce breakouts
- * Improve uneven skin tone
- * Hydrate the skin
- * Improve fine lines and wrinkles

SIDE EFFECTS

- * None
